

Interactive terminal easy pc stand with 22" touchmonitor

Order no. EASY-PC-STAND-2202L

Description

The interactive design terminal **easy pc stand** is ideal for the interactive transfer of information, the greeting of customers or also the control of machines. Due to its desk shape it allows a free view of the objects behind it. The base provides a secure tipping protection and can be additionally screwed down if required. Cable management takes place inside the column. A mini-PC can also be permanently stored in a lockable storage space in the column.

Application

Kiosk, self-service and information applications, exhibitions, retail, industrial applications
